# Perth Water *Buneenboro* Appendix A- Plant Species List

April 2024

## Development of the plant species list

This species list has been developed based on a hierarchical approach that considers the level of degraded native vegetation in the existing landscape, the predominant land use, soil qualities, hydrological zone and the objectives and principles outlined in the Landscape and Planting Guidelines. This plant species list contains species that are generally accepted throughout the Perth Water Buneenboro locality. However, specific site conditions must be considered when choosing plant species. The Guidelines recommend working closely with land managers to this end.

## Nurseries

This list has been cross-referenced with local nurseries to ensure capacity to respond to demand. Consider the following information when ordering from nurseries:

- Nurseries generally require orders by the end of July for delivery in the following winter. See below for further detail. The general rule applies - **the earlier the better**;
- Rows that have been coloured in **Yellow** denote advanced ordering requirements - the end of March for delivery in the following winter;
- Plants can be sold as tubestock @50mm, 130mm, 140mm, 175mm, 200mm, 305mm, and in 45L bags, depending on the species and supplier;
- Plant orders and palettes should remain flexible and acknowledge substitution may be required because propagation failure might be encountered.

## Whadjuk Noongar cultural knowledge

The information that has been provided is Indigenous Cultural Intellectual Property, and provides a surrounding context for the plants species. Permission to use this cultural information in landscape designs should be sought from Vivienne Hansen, who has provided these insights, or from a cultural authority from Whadjuk Aboriginal Corporation.

Plants have a range of purposes in the Noongar community, and many are multi-functional. Some plant species used one word to cover all of the different types of plants in the same species. As the Noongar language is primarily an oral language, various spellings are used throughout the Noongar community.

## Vegetation themes

Geology, landform and climate affect soil formation, which in turn primarily influences vegetation composition and distribution. Further influences include disturbance such as fire and water regimes, weed invasion and land clearing and modification.

The Perth Water Buneenboro Locality lies within the Swan Coastal Plain and broadly includes the following vegetation themes based on pre-existing landscape character of the vegetation complexes, soils, geology and hydrology, shown in figure 1.

### A note on modified landscapes

All sites within the policy area have been modified to some degree. While vegetation complexes have guided preparation of the species list, the list has been extrapolated from the overall landform information and prevalent soils to provide a globally acceptable species selection.

### Vasse Complex

Mixture of the closed scrub of *Melaleuca* species fringing woodland of *Eucalyptus rudis* (Flooded Gum) – *Melaleuca* species and open forest of *Eucalyptus gomphocephala* (Tuart) – *Eucalyptus marginata* (Jarrah) – *Corymbia calophylla* (Marri).

### Bassendean Complex

Vegetation ranges from woodland of *Eucalyptus marginata* (Jarrah) – *Allocasuarina fraseriana* (Sheoak) – *Banksia* species to low woodland of *Melaleuca* species, and sedgeland on the wetter sites. This area includes the transition of *Eucalyptus marginata* (Jarrah) to *Eucalyptus todtiana* (Pricklybark) in the vicinity of Perth.

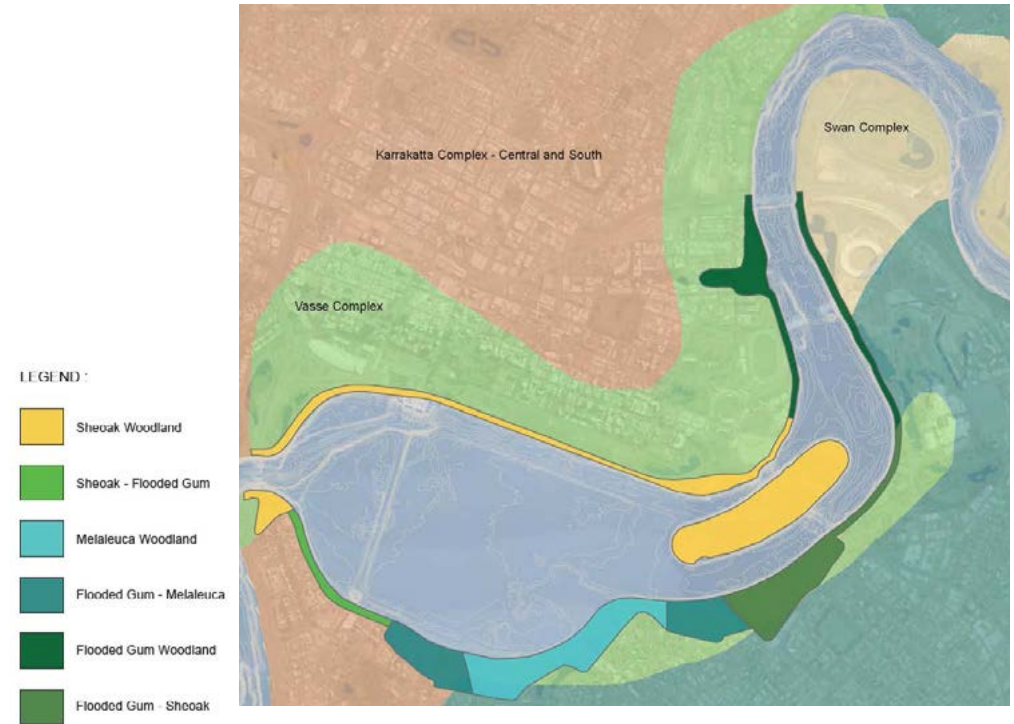

Figure 1 Vegetation Themes (Source: Syrinx report for Perth Water Buneenboro Locality Plan, 2019)

### Swan Complex

Fringing woodland of *Eucalyptus rudis* (Flooded Gum) – *Melaleuca raphiophylla* (Swamp Paperbark) with localised occurrence of low open forest of *Casuarina obesa* (Swamp Sheoak) and *Melaleuca cuticularis* (Saltwater Paperbark).

### Karrakatta Complex

Predominantly open forest of *Eucalyptus gomphocephala* (Tuart) – *Eucalyptus marginata* (Jarrah) – *Corymbia calophylla* (Marri) and woodland of *Eucalyptus marginata* (Jarrah) – *Banksia* species.

## Planting zones

Different plant species have specific hydrological requirements, and are better suited for either drier or wetter conditions. Plants should be selected and planted according to the different zones found across the foreshore. Plant selection should also be cognisant of anticipated changes to soil conditions effected from climate change (e.g., rising sea levels, occasional flooding, increased salinity).

### Dryland

The lands outside of the floodplain that rarely interact with the river. Dryland plants will benefit from having a low-phosphorous, slow-release fertiliser added to the base of the planting hole. The addition of soil wetter to the fertiliser will improve water penetration into non-wetting soils.

### Riparian zone

The lands directly adjacent creeks and rivers, including the riverbank, wetlands and parts of the river floodplain that interact with the river seasonally or during flood events. Riparian plantings should be conditioned for moister soil, and saline conditions.

### Intertidal zone

The foreshore lands within the tidal range. These lands are above the water at low tide, and are underwater at high tide. Plantings in this zone will be subject to frequent inundation and seasonal variation in salinity.

### Submergent zone

Perennially wet with standing water at fluctuating levels most of the year. Submergent plants grow under the water, often with leaf parts above the water level. This plant species list does not specify species for the submergent zone.

Figure 2 Planting zones diagram

## Other resources

Further information relevant to foreshore revegetation can be found in Chapter 2 of *Best Management Practices for Foreshore Stabilisation* (DBCA, 2021).

Guidelines for creation of a stormwater biofilter can be found in *Vegetation guidelines for stormwater biofilters in the south-west of Australia* (Oversby, B., Payne, E., Fletcher, T., Byleveld, G., Hatt, B., 2014).

## Planting density considerations

Planting densities depend on plant form (e.g., tree, shrub, sedge), anticipated survival rates, and location (e.g., dryland, riparian or intertidal zone). Some general information on densities is provided below. See Appendix B - Planting Zones for further information on planting locations.

### Trees

Tree planting densities are normally associated with container size and the desired level of canopy shade when mature. Trees should be planted at a maximum density of  $1/3\text{m}^2$  when using tubestock. Tree planting densities can be as low as 1 every  $10\text{m}^2$  or even lower when using mature stock (10L bags and larger).

### Sedges

Rushes and sedges should generally be planted at  $6-9/\text{m}^2$  with tufted species inclined to the higher density. Species should be planted in single-species groups to avoid competition loss and to mimic natural patterns of growth. The planting densities provided for sedges are suitable for 140mm pots. Tubestock should be planted at higher densities to allow for higher plant losses. Account for inundation limits of each species when planting within shorelines.

### Shrubs

Shrub planting densities relate to the average width of the mature plant, aiming to provide complete cover. Planting densities are around  $4/\text{m}^2$  depending on mature plant size.

### Groundcover

Groundcover planting densities should be in relation to the rate of growth. Rapid spreading species can be planted as low as  $1/\text{m}^2$  or even lower. Slow growing species can be planted at  $3/\text{m}^2$ .

### Grasses and grass-like plants:

Grasses and grass-like plants are planted at densities relating to the diameter of the mature plant. Most species in this category form tussocks and do not spread. To achieve complete cover, densities may be as high as  $6-8/\text{m}^2$ .

## How to use this plant species list

Species information has been provided to guide selection based on desired outcome, as detailed in Appendix B - Landscape & Planting Zones. The Plant Species List acknowledges that sites within the locality are highly modified, with varying qualities of infill. Species choice may vary according to the site specific conditions. Land managers should be consulted to further advise appropriate species selection.

Information on the following sheets can be interpreted in the following ways:

### Yellow coloured rows:

River pea	<i>Gastrolobium ebracteolatum</i>	
Spider flower/ Grey grevillea/ Toothbrush	<i>Grevillea vestita</i>	Ngutek (common name for Grevillea species)
Corkybark	<i>Gyrostemon ramulosus</i>	
Variable-leaved hakea	<i>Hakea varia</i>	Kodjet

A number of nurseries have been consulted to understand their capacity to meet demand for plant species, and to identify species that require advance notice for ordering. Species in the **Yellow** coloured rows have a longer lead time and should be ordered by the end of March, the year before delivery for the following winter. All other rows should be ordered by the end of July for delivery for the following winter.

### Landscaping qualities:

Noongar name	Flowering time	Flower colour	Height	Landscaping Qualities	Planting stage
Munyuret/ Woolya Wah/ Wilyawa/ Bulyee	Sep - Dec or Jan - May	Yellow	0.8-4m	✓	1st
	Aug - Oct	Yellow	1-4m		1st

These plant species have been identified for shading or windbreaking qualities.

### Planting stage:

Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping Qualities	Planting stage
<i>Acacia rostellifera</i>		Jul - Oct or Dec	Yellow	1-6m		1st
<i>Agonis flexuosa</i>	Wonil	Jul - Dec or Jan	White	up - 10m	✓	1st

Provides guidance on whether this species should be planted in the 1st year of works, subsequent years of infill planting, or is dynamic and suitable at any stage.

### Planting zone:

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping Qualities	Planting stage	Planting zones
Redheart/ Limestone marlock	<i>Eucalyptus decipiens</i>	Moit	Aug - Dec or Jan	White	1.5-15m	✓	1st	(D), (R)
Tuart	<i>Eucalyptus gomphocephala</i>	Duart/ Morrool/ Mooarn/ Moorun/ Mouarn/ Tooart	Jan - Apr	White	10-40m	✓	1st	(D)

Based on planting zones discussed above, species are indicated as Dryland **(D)**, Riparian **(R)**, or Intertidal **(I)**.

### Fauna information:

Aug - Dec or Jan	White - cream	0.2-4m	✓	1st	(D)	
Sep - Dec or Jan	White/ pink/ pink - purple	0.5-5m	✓	1st	(D)	

Indicates other ecosystem services of the plant in providing food and or habitat for fauna species (i.e., insects, birds, mammals).

### Whadjuk uses:

Noongar name	Flowering time	Flower colour	Height	Landscaping Qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
	Jul - Oct or Dec	Yellow	1-6m		1st	(D)		✓
Wonil	Jul - Dec or Jan	White	up - 10m	✓	1st	(D), (R)		✓

Indicates whether the plant species has a culinary, medicinal or other utility use for Whadjuk Noongar peoples. Further detail, and permission for use of this cultural information, should be sought from Vivienne Hansen, or other cultural authority recommended by the Whadjuk Aboriginal Corporation.

**Trees**

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping Qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
Summer-scented wattle	<i>Acacia rostellifera</i>		Jul - Oct or Dec	Yellow	1-6m		1st	(D)		✓
Peppermint	<i>Agonis flexuosa</i>	Wonil	Jul - Dec or Jan	White	up - 10m	✓	1st	(D), (R)		✓
Sheoak/ Western sheoak/ Common Sheoak	<i>Allocasuarina fraseriana</i>	Kondil/ Condil/ Kulli/ Gulli/ Quail/ Kwell	May - Oct	Brown	5-15m	✓	1st	(D)		✓
Little summer candles/ Slender banksia	<i>Banksia attenuata</i>	Piara/ Biara/ Bealwra/ Peera/ Piras/ Binda	Oct - Dec or Jan - Feb	Red	0.4-10m		1st	(D)		✓
Bull banksia	<i>Banksia grandis</i>	Mungite/ Poolgarla/ Mangij/ Mungytch/ Beera	Sep - Dec or Jan	Yellow - green	1.5-10m		1st	(D)		✓
Holly-leaved banksia	<i>Banksia ilicifolia</i>		Jan - Dec	Yellow/red/ orange/cream	up - 12m		1st	(D)		✓
Swamp banksia	<i>Banksia littoralis</i>	Pungura/ Boongura/ Boora/ Boorapur/ Mimidi	Mar - Aug	Yellow - orange/ yellow	1.5-12m		1st	(D), (R)		✓
Firewood banksia	<i>Banksia menziesii</i>	Mungyte/ Mungite	Feb - Oct	Pink/red/yellow	1.3-7m		1st	(D)		✓
Little Kalbarri candles	<i>Banksia prionotes</i>	Manyret	Feb - Aug	Cream - orange	up - 10m		1st	(D)		✓
Parrotbush	<i>Banksia sessilis</i>	Pulgart/ Budjan/ Pudjak	Apr - Nov	Yellow - cream	0.5-8m	✓	1st	(D)		✓
Lesser bottlebrush/ Scarlet bottlebrush/ Fiery bottlebrush	<i>Callistemon phoeniceus</i>	Tubada	Sep - Dec or Jan	Red	1-6m	✓	1st	(D), (R)		✓
Rottnest Island pine	<i>Callitris preissii</i>	Maro	Oct - Dec or Jan	Yellow/ brown/ orange	1-9m	✓	1st	(D)		✓
Swamp sheoak	<i>Casuarina obesa</i>		Jan - Dec		1.5-10m	✓	1st	(D), (R)		
Marri	<i>Corymbia calophylla</i>	Mari/ Marril/ Marree/ Mundup/ Nandup/ Nundup/ Kurrden/ Kardan/ Cardau/ Gardan/ Grydan/	Dec or Jan - May	White - pink	up-60m	✓	1st	(D), (R)		✓

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping Qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
Redheart/ Limestone marlock	<i>Eucalyptus decipiens</i>	Moit	Aug - Dec or Jan	White	1.5-15m	✓	1st	(D), (R)		✓
Tuart	<i>Eucalyptus gomphocephala</i>	Duart/ Morrool/ Mooarn/ Moorun/ Mouarn/ Tooart	Jan - Apr	White	10-40m	✓	1st	(D)		✓
Jarrah	<i>Eucalyptus marginata</i>	Cherring/ Chiaragl/ Djara/ Djarrail/ Djarryl/ Djerral/ Dyerral/ Gharrahel/ Jarrail/ Jarral/ Jeerilya/ Jeril/ Jerrail/ Jerral/ Jerryl/ Yarrah	Jun - Dec or Jan	White - cream/ pink	up-40m	✓	1st	(D)		✓
Flooded gum	<i>Eucalyptus rudis</i>	Kulurda/ Gulurto	Jul - Sep		5-20m	✓	Dynamic	(D), (R)		✓
Pricklybark/ Coastal blackbutt	<i>Eucalyptus todtiana</i>	Dwutta	Jan - Apr	White - cream	2-15m	✓	1st	(D)		✓
Saltwater paperbark	<i>Melaleuca cuticularis</i>	Bibool/ Yaularung/ Bewel/ Koll/ Mudurda	Aug - Nov	White - cream	0.35m-7m	✓	Dynamic	(D), (R)		✓
Moonah	<i>Melaleuca preissiana</i>	Moonah	Nov - Dec or Jan - Feb	White - cream - yellow	2-9m	✓	Dynamic	(R), (I)		✓
Swamp paperbark	<i>Melaleuca raphiophylla</i>	Yowarl/ Bibool Boorn/ Yeymbac/ Yiembac/ Yawl	Jul or Sep - Dec - Jan	White-cream	0.2-10m	✓	Dynamic	(D), (R), (I)		✓
Christmas tree	<i>Nuytsia floribunda</i>	Moodja/ Mungai/ Mooja/ Mungah/ Moondjak/ Moodgar	Oct - Dec or Jan	Yellow - orange	up- 10m		Infill	(D)		✓

**Shrubs  
3-5m**

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping Qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
Coastal wattle	<i>Acacia cyclops</i>	Munyuret/ Woolya Wah/ Wilyawa/ Bulyee	Sep - Dec or Jan - May	Yellow	0.8-4m	✓	1st	(D)		✓
White-stemmed wattle	<i>Acacia xanthina</i>		Aug - Oct	Yellow	1-4m		1st	(D)		
Common woollybush	<i>Adenanthos cygnorum</i>	Boyur	Jul - Dec or Jan	White - cream - pink - green	up - 4m	✓	1st	(D)		
Recherche astartea	<i>Astartea fascicularis</i>		Jan - Jul or Oct - Dec	White / cream	0.3-5m		1st	(D), (R)		
Geraldton wax	<i>Chamelaucium uncinatum</i>		Jun - Nov	Pink / white	0.5-4m	✓	1st			
Tree smokebush	<i>Conospermum triplinervium</i>	Boyur	Aug - Dec or Jan	White	0.5-4.5m		1st	(D)		✓
Coast hop-bush	<i>Dodonaea aptera</i>		Apr - Jul		0.5-3.5m	✓	1st	(D)		
Hackett's hop-bush/ Perth hop-bush	<i>Dodonaea hackettiana</i>		Jul - Oct	Yellow - green/ red	1-5m	✓	1st	(D)		
Narrow-leaved red mallee/ Fremantle mallee	<i>Eucalyptus foecunda</i>		Aug or Jan - Feb	White - cream	up - 5m	✓	1st	(D)		✓
River pea	<i>Gastrolobium ebracteolatum</i>		Oct - Dec	Purple / yellow / red	up - 4m		1st	(R)		
Spider flower/ Grey grevillea/ Toothbrush	<i>Grevillea vestita</i>	Ngutek (common name for Grevilla species)	Jan - Nov	White - cream	0.5-4.5m		1st	(D)		✓
Corkybark	<i>Gyrostemon ramulosus</i>		May - Oct	White / green - yellow	0.5-5m		Infill	(D)		
Variable-leaved hakea	<i>Hakea varia</i>	Kodjet	Jul - Nov	White / cream - yellow	1-4m	✓	1st	(D), (R)		✓
Grey stinkwood	<i>Jacksonia furcellata</i>		Oct - Dec or Jan - Mar	Yellow - orange	0.4-6m		1st	(D), (R)		
Stinkwood	<i>Jacksonia sternbergiana</i>	Kabbur	Jan - Dec	Yellow - orange	1.5-5m		1st	(D), (R)		
Coral vine	<i>Kennedia coccinea</i>	Waalín	Aug - Nov	Orange - pink / red - pink - purple		✓	Infill	(D)		
Spearwood/ Yellow kunzea/ Native tea	<i>Kunzea glabrescens</i>	Kitja boorn/ Poorndil Condi/ Pondil	Jul or Sep - Dec	Yellow / white - cream	0.4-4m		1st	(R)		✓

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping Qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
Tangling melaleuca	<i>Melaleuca cardiophylla</i>		Aug - Dec or Jan	White - cream	0.2-4m	✓	1st	(D)		✓
Chenille honeymyrtle	<i>Melaleuca huegelii</i>		Sep - Dec or Jan	White/ pink/ pink - purple	0.5-5m	✓	1st	(D)	  	✓
Grey honeymyrtle	<i>Melaleuca incana</i>		May - Nov	White - cream - yellow	0.4-5m		1st	(D), (R)		✓
Mohan	<i>Melaleuca viminea</i>		Jul - Nov	White - cream	0.6-5m	✓	1st	(D), (R)		✓
Blueberry tree/ Southern boobialla	<i>Myoporum insulare</i>	Boobialla	Jul - Dec or Jan - Feb		0.25-5m		1st	(D)		✓
Basket bush	<i>Spyridium globulosum</i>		Jun - Nov	White	0.3-5m		1st	(D)		
	<i>Taxandria linearifolia</i>		Mar - May or Sep - Dec	White	up-5m		1st	(D), (R)		
Cockies tongue	<i>Templetonia retusa</i>	Yackal Djarr/ Injid	Apr - Nov	White - yellow / red	0.3-4m		1st	(D)		✓
Swishbush	<i>Viminaria juncea</i>	Koweda	Oct - Dec or Jan	Yellow	1-4m		1st	(D), (R)		

**Shrubs  
1-3m**

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
Winged wattle	<i>Acacia alata</i>		Apr - Dec	White - cream/ yellow/ pink	0.3-2.1m	✓	1st	(D), (R)		✓
Rigid wattle	<i>Acacia cochlearis</i>	Galyang	Jul - Oct	Yellow	0.3-3m		1st	(D)		✓
	<i>Acacia dentifera</i>		Aug - Nov	Yellow	0.6-3m		1st	(D)		
Dune moses	<i>Acacia lasiocarpa</i>	Panjang	May - Oct	Yellow	0.15-2.5m		1st	(D), (R)		
Prickly moses	<i>Acacia pulchella</i>	Mindaleny	May - Dec	Yellow	0.3-3m		1st	(R)		
Narrow winged wattle	<i>Acacia stenoptera</i>		Mar - Dec	Yellow - cream	0.2-1.5m		1st	(D)		
Basket flower	<i>Adenanthos obovatus</i>		May - Dec	Red - orange	0.3-2m		1st	(D), (R)		
Dwarf sheoak	<i>Allocasuarina humilis</i>		May - Nov	Red / brown - orange	0.2-2m	✓	1st	(D)		
Common astartea	<i>Astartea scoparia</i>			White	up-1.8m		1st	(D)		
Prickly dryandra	<i>Banksia armata</i>		Jun - Oct	Cream - yellow	0.2-1.5m		1st	(D)		✓
Honeypot dryandra	<i>Banksia nivea</i>	Bulgalla	Apr or Jul - Nov	Red - brown / cream - yellow - orange - pink	0.15-1.5m	✓	1st	(D)		✓
Elegant beaufortia	<i>Beaufortia elegans</i>		Aug - Dec or Jan - Feb	Red / purple / pink / white	0.3-2m	✓	1st	(D), (R)		
Purple beaufortia	<i>Beaufortia purpurea</i>		Oct - Dec or Jan - Feb	Red - purple	0.3-1.5m	✓	Infill	(D)		

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
	<i>Billardiera variifolia</i>		Oct - Dec or Jan - May	Yellow - cream - blue - purple	up - 2.5m		Infill	(D)		
Aniseed boronia	<i>Boronia crenulata</i>	Komorup	May - Dec or Jan - Feb	Red - pruple - pink	0.25-1.2m	✓	Infill	(D), (R), (I)		
Hairy claw flower	<i>Calothamnus hirsutus</i>		Sep - Dec or Jan - Feb	Red	0.3-1.5m	✓	1st	(D)		
One-sided bottlebrush	<i>Calothamnus quadrifidus</i>	Kwowdjard/ Quietjat	Jun - Dec	Red / white - yellow	0.5-3m	✓	1st	(D), (R)		✓
Silky-leaved blood flower	<i>Calothamnus sanguineus</i>	Bin-dak/ Pin-dak	Mar - Nov	Red	0.2-2m		1st	(D)		✓
Pink summer calytrix	<i>Calytrix fraseri</i>		Nov - Dec or Jan - Aug	Yellow - pruple - pink / pink	0.2-2m		Infill	(D)		
Summer smokebush	<i>Conospermum crassinervium</i>	Booyer	Oct - Dec or Jan - Apr	White	0.6-1.5m		Infill	(D)		✓
Common smokebush	<i>Conospermum stoechadis</i>		Jul - Dec	White	0.3-2m		1st	(D)		
Lemon-scented darwinia	<i>Darwinia citriodora</i>		May - Dec	Red / green - yellow	0.2-3m		Infill	(D)		✓
Marno	<i>Daviesia divaricata</i>	Marno	Jun - Nov	Yellow/ brown/ orange/ red/ pruple	0.3-3m		1st	(D)		
Southern diplolaena	<i>Diplolaena dampieri</i>		Jul - Nov	Red - orange	0.5-2m		1st	(D)		
	<i>Diplopeltis huegelii</i>		Apr - Dec	White - pruple - pink	0.1-1.5m		Infill	(D)		
Orange-flowered erermaea	<i>Eremaea pauciflora</i>		Jul - Dec	Yellow / orange	up - 2m		1st	(D), (R)		

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
Purple-flowered eremaea	<i>Eremaea purpurea</i>		Oct - Dec or Jan - Feb	Purple - pink / white	0.4-2m		1st	(D)		
Tar bush	<i>Eremophila glabra</i>	Berrung	Mar - Dec	Yellow - orange - green - red - brown	0.1-3m		1st	(D)		✓
	<i>Gompholobium confertum</i>		Aug - Dec or Jan - Mar	Blue - purple	0.15-1.2m		1st	(D)		
Green Carpet	<i>Grevillea crithmifolia</i>	Berrung	Jun or Aug - Nov	White - pink / white	0.3-2m		1st	(D)		✓
Obtuse leaved grevillea	<i>Grevillea obtusifolia</i>		Apr or Aug - Nov	Red - pink / red	0.2-2m		1st	(D), (R)		
Seaspray	<i>Grevillea preissii</i>		Jun - Sep	Red	0.15-1.7m		1st	(D)		✓
Spider net grevillea	<i>Grevillea thelemanniana</i>		May - Nov	Red - pink	0.3-1.5m		1st	(D)		
	<i>Guichenotia ledifolia</i>		Jul - Oct	Blue - purple - pink	0.4-2m		1st	(D)		
Horned leaf hakea	<i>Hakea ceratophylla</i>		Sep - Dec	Brown - red	0.3-2m		1st	(D)		✓
Honey bush	<i>Hakea lissocarpha</i>	Djanda	May - Sep	White - cream / yellow / pink	0.4-3m		1st	(D)		✓
Harsh hakea	<i>Hakea prostrata</i>	Berrung/ Pulgur/ Doolgur/ J	Jul - Oct	White - cream	1-3m		1st	(D)		✓
Candle hakea	<i>Hakea ruscifolia</i>		Dec or Jan - Apr or Jun	White	0.5-3m		1st	(D)		✓
Two-leaf hakea	<i>Hakea trifurcata</i>	Dulgar/ Tulga	Apr - Oct	White / cream - pink	1.5-3m	✓	1st	(D)		✓

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
Cutleaf hibbertia	<i>Hibbertia cuneiformis</i>		Jan - Mar or Jun - Nov	Yellow	0.5-3m		1st	(D), (R)		
Orange stars	<i>Hibbertia stellaris</i>		Aug - Dec	Yellow - orange / orange / yellow	0.15-1.5m		Infill	(R)		
Devil's pins	<i>Hovea pungens</i>	Pooyinak	May - Nov	Blue - pruple	0.2-1.8m		Infill	(D)		
White myrtle	<i>Hypocalymma angustifolium</i>	Koodgeed/ Kudjidi	Jun - Oct	White - cream	up - 1.5m	✓	1st	(D), (R)		✓
Swan River Myrtle	<i>Hypocalymma robustum</i>		Jun - Nov	Pink - red/ pink	0.4-1.5m		1st	(D)		
	<i>Kunzea recurva</i>	Kitja boorn/ Poorndil Condi	Aug - Dec	Pink / red - pruple	0.3-2m		1st	(D)		✓
Many-flowered honeysuckle	<i>Lambertia multiflora</i>	Moncart/ Paarluc	Jun - Dec	Yellow / orange - red	0.5-2.5m		1st	(D)		✓
	<i>Leptospermum spinescens</i>		Sep - Dec	White - cream	0.3-1.5m		1st	(D)		
Zamia	<i>Macrozamia riedlei</i>	Djiridji/ Biana/ Quinnin/ Jeeriji			0.5-3m		1st	(D)		✓
Robin redbreast bush	<i>Melaleuca lateritia</i>		Sep - Dec or Jan - Apr	Orange - red	up-2.5m		1st	(D), (R)		✓
Coast honey-myrtle	<i>Melaleuca systema</i>		Feb - Mar or Aug - Dec	Yellow - cream	0.25-3m		1st	(D)		✓
	<i>Melaleuca thymoides</i>		Sep - Dec or Jan	Yellow - cream	0.2-2m		1st	(D)		✓
Slender myoporum	<i>Myoporum caprarioides</i>		Feb or Apr or Jun or Aug - Dec	White / white - blue - pink	0.3-3m		1st	(D), (R)		

Common name	Scientific name	Noongar name	Flowering time	Flower colour	Height	Landscaping qualities	Planting stage	Planting zones	Fauna information	Whadjuk uses
Coastal daisybush	<i>Olearia axillaris</i>	Kwiyoowal	Jan - Jul or Nov - Dec	White - cream - yellow	0.2-3m		1st	(D)		✓
Rough daisybush/ Bristly daisybush	<i>Olearia rudis</i>		Jul - Nov	Blue - purple / blue - yellow	0.25-1.3m		1st	(D)		
Swamp tea tree	<i>Pericalymma ellipticum</i>		Oct - Dec or Jan	White - pink	up-3m		1st	(D), (R)		
Snottygobble	<i>Persoonia saccata</i>	Kadgeegurr/ Bgowdik/ Cadḡ	Jul - Dec or Jan	Yellow - green/ yellow	0.2-1.5m		Infill	(D)		✓
	<i>Petrophile macrostachya</i>		Jul - Nov	Yellow - cream	0.3-1.2m		Infill	(D)		
	<i>Petrophile serruriae</i>		Jul - Dec	Yellow / cream / pink	0.2-1.5m		Infill	(D)		
Pepper and salt	<i>Philothea spicata</i>		Jun - Nov	White / purple - blue - pink	0.2-1.2m		Infill	(D)		
False boronia	<i>Phyllanthus calycinus</i>		Jun - Dec or Jan	White - cream / pink	0.2-1.2m		1st	(D)		
Coast banjine	<i>Pimelea ferruginea</i>		Aug - Dec or Jan - Feb	Pink	0.3-1.5m		1st	(D)		
	<i>Platytheca galioides</i>		Jul - Nov	White / purple - blue - pink	0.2-1.5m		Infill	(D), (R)		
	<i>Regelia ciliata</i>		Jan - Dec	Purple - pink	0.3-3m		1st	(D)		
	<i>Regelia inops</i>		Jan or Mar or Jun or Oct - Dec		0.75-2.5m		1st	(D)		
Berry saltbush/ Sea berry saltbush	<i>Rhagodia baccata</i>		Feb or Apr - May or Oct - Dec	Green / yellow - cream	0.3-2m		1st	(D)		✓
