Development Application Guidelines for Form 1

Under the Swan and Canning Rivers Management Act 2006 – Part 5 – section 72(1)

Important information for applicants

- The Department of Biodiversity, Conservation and Attractions (the department) is responsible for assessment of development applications in the Swan Canning Development Control Area under section 72(1) of the Swan and Canning Rivers Management Act 2006 (SCRM Act).
- 2. The original application Form 1 must be accompanied by sufficient information detailing the proposed works and a full set of scaled plans and specifications for the proposed development. Under section 72(7) of the SCRM Act, the department may also request further information relating to the development before considering the application to be valid and to enable proper consideration of the application.
- 3. The landowner(s) must consent to the application being made and must sign the application. The applicant is responsible for obtaining landowner(s) consent, except where the landowner is the department.
- 4. Where the applicant appoints an authorised agent to act on their behalf, the authorised agent must attach a copy of the written authority to the application.
- 5. The application is to be lodged with the local government or redevelopment authority in whose jurisdiction the proposed development is situated. If the proposed development is not within a local government or redevelopment authority area, the application is to be made direct to the department's Swan Canning Waterways Branch.
- 6. There are penalties for providing false information in the application, which may include a fine of up to \$10 000, under section 88 of the SCRM Act.
- 7. Please read the information below carefully when preparing your application. The application will not be considered valid and will be returned to the applicant if the application has not been signed by the owner(s) of the land, or is not accompanied by adequate detail, plans and specifications of the proposed development.

Planning Policies for development affecting the Swan Canning Development Control Area

Development proposals must be consistent with the purpose and objectives of the SCRM Act, which provides for the protection and enhancement of the ecological health, community benefit, amenity and heritage value of the Swan Canning river system. A range of planning policies have been created to guide land use and development and provide for consistent and integrated planning and decision making in relation to the Swan Canning Development Control Area.

The policies provide guidance regarding the issues that are considered when assessing an application. Where possible please address any relevant issues identified in the policies and include this supplementary information with the application.

Corporate Planning Policies for development affecting the Swan Canning Development Control Area

The department has a range of policies, guidelines and plans relevant to development affecting the Swan Canning Development Control Area which are available on the department's website.

These documents provide direction and guidance regarding how the department assesses development applications in accordance with the SCRM Act and Swan and Canning Rivers Management Regulations 2007.

State Planning Policy 2.10 - Swan Canning River System (SPP 2.10)

State planning policies (SPPs) provide the highest level of planning policy control and guidance in Western Australia. SPPs are prepared under Part 3 of the *Planning and Development Act 2005*.

SPP 2.10 identifies the key issues for planning and decision making for the Swan Canning river system and is available on the Department of Planning, Lands and Heritage website: https://www.dplh.wa.gov.au/spp2-10

Other relevant planning policies, guidelines and Australian Standards that address issues such as (but not limited to): design, lighting, wetlands, bushfire planning, visual impacts, stormwater, contaminated sites, acid sulphate soils, bushland conservation and water quality may also be considered during the assessment.

Checklist of information to include with a Form 1 application

To assist the efficient assessment of applications please include the detail requested below and any other additional information relevant to the proposal.

Item	\square	N/A					
Completed application form, including written consent of the landowner(s).							
Additional information including details of the proposed development (including the existing and proposed use of the site and proposed hours of operation) and addressing any relevant issues identified in the policies.							
Plans and specifications of the proposed development showing:							
 current and proposed levels (contours at no greater than 1 metre intervals), including retaining structures and fill requirements 							
 the location, metric dimensions, materials, finishes and type of all existing and proposed structures, including services 							
sections through the site							
 the nature and extent of any open space and landscaping proposed 							
 proposed external lighting and signage 							
 any watercourse(s) flowing through the site 							
 position of any large trees or on-site vegetation clearly marking vegetation to be retained and removed 							
 the existing and proposed means of access and movement for pedestrians and vehicles 							
Plans, elevations and sections of any building or structure proposed to be erected or altered and/or any building or structure to be retained.							
Site plan of the lot showing the development location in relation to:							
adjacent roads							
rivers, creeks, springs and wetlands							
 nearby conservation areas and/or Bush Forever sites 							
floodway and floodplain boundaries							
land reserved for Parks and Recreation under the Metropolitan Region Scheme							
Information on the availability of drainage and sewer.							
Information on any impacts to heritage sites and subsequent approvals (if required).							
Information regarding potential acid sulphate soils and/or contamination.							
If the proposed development is likely to disturb potential and/or actual acid sulfate soils or a							
contaminated site, a preliminary investigation is required, and the results included with this application.							
Detail of proposed construction methodologies.							
Geotechnical information							
Operational details (where relevant) e.g. for a proposed cafe							
Larger developments should also include:							
Photo montages showing the development in relation to the river and foreshore landscape.							
Information on the impacts of parking, noise and traffic generated by the proposal.							
Details of stormwater management incorporating water sensitive urban design principles.							
Details of any dewatering proposed during construction including the expected volumes, water quality, method of disposal and sampling regimes in accordance with DBCA's Policy 50 – Planning for dewatering affecting the Swan and Canning Development Control Area.							
Any specialist studies and/or management plans required to support the application such as traffic, heritage, environmental, engineering, landscaping or urban design studies.							

Form 1 – Application for Approval of Development Swan and Canning Rivers Management Act 2006 – Part 5 – section 72(1)
